## Information Disclosure Statement

Commissioner for Patents  
Washington, District of Columbia 20231

Sir:

Attached is a completed Form PTO-1449 and copies of the pertinent parts of the references cited thereon. Following are comments on any non-English-language references pursuant to Rule 98:

Canadian Patent 1,182,392, dated Feb. 12, 1985 in the name of Richardson et. al. discloses a nitrogen gas generation system to produce heat spike in a water-based brine solution. This is a form of hot oil treatment common in various methods in the industry. It, however, is not a preventative tool as is found in my current invention.

Very respectfully,

Applicant(s): Michael Ray Carr Sr.
